

CONFIDENTIALDDS&T-3719-82
26 August 1982

MEMORANDUM FOR: Director of Development and Engineering
Director of Research and Development
Director of SIGINT Operations
Director of Technical Service
Director, Foreign Broadcast Information Service
Director, National Photographic Interpretation
Center

FROM:

 DDS&T Communications Requirements Coordinator

25X1

SUBJECT:

Communications Support Requirements FY-85
through FY-89

The attached request from DDA/OC for our FY-85 through FY-89 communications support requirements is self-explanatory. Note, there has been a format change for these submittals over that used in previous years. Make sure that all your requirements have a unique office requirement number (which identifies the program year of the requirement) and are assigned an office priority for each year. With the DDS&T's large stake in the OC Recapitalization Program, many of your commo requirements may be automatically covered by OC. I urge each office to contact Mr. (OC-ED/SIS) if there is any question as to what to include in your FY-85 through FY-89 submission. Related to this is the need for consistency in reporting/planning our secure commo requirements. Attention should be paid to your previous year requirement submissions in order to avoid double counting and, more importantly, to pick up these unsatisfied requirements which were "rolled forward." Finally, in order for me to review and correlate your individual office submissions prior to the O/C submittal, please provide your requirements to the Planning Division by 18 October 1982.
